

POKÉGNEK BODÉWADMIK CENTER OF HISTORY & CULTURE

LEARN HOW TO GROW YOUR OWN EDIBLE MUSHROOMS AT HOME

SUNDAY, MAY 7  4 - 6 P.M.
CENTER OF HISTORY & CULTURE
59291 Indian Lake Rd.

Come to this workshop and learn how to inoculate logs with edible mushroom spores.

15 LOGS WILL BE PROVIDED for participants to inoculate and bring home.

Once inoculated, mushroom logs require very little care and can provide mushrooms for years.

There will also be 10 inoculated straw bags to bring home, especially for those who would like to grow mushrooms but don't have a yard. We will have enough spore for 5 shitake logs, 5 oyster logs, and 5 lions mane logs.
