Amended Pokagon Band Gaming Commission Liquor Control Regulations

Notice of Adoption

- **Description of the Nature**
 - Changes to the PBGC Liquor Control Regulations have been made to add clarifying language and eliminate ambiguity in amendments to Sections of the Liquor Control Regulations adopted by the Commission in February 2022, including access to records, communication with the Commission, licensing, license suspensions and revocations, alcoholic liquor advertising, purchasing, hours and days of operation, license posting, prohibited acts, and giving away alcoholic liquor.
- **Effect of the Proposed Regulations**
 - The amended language contained in the PBGC Liquor Control Regulations removes contradictory language within certain Sections, eliminates ambiguity, and adds clarifying language to align the Regulations with accepted current business practice by Commission licensees.
